SOCIETY OF FEED
TECHNOLOGISTS

PIGS

3 November 2016

Windmill Village Hotel Coventry

INTRODUCTION

We are delighted to invite you to the Society of Feed Technologists (SFT) conference on topical and important pig topics. With a team of experienced international speakers of the highest quality we can look forward to each paper being informative, relevant and attractively presented. The conference will focus on highly relevant areas of pig production.

The decision made to leave the EU poses serious challenges to the UK pig industry and the conference commences with Mick Sloyan, AHDB examining the future prospects for the UK pig industry post Brexit. The results from the Edgar Pye Scholarship will be presented by Dr Sian Nichols, Nutreco, in a joint paper with Dr Sadie Douglas, Farmex, outlining early nutritional strategies to promote lifetime pig performance, while Manon Houben from The Netherlands, will discuss litter management for the new emerging super prolific pig stock.

On more basic technical topics Professor Mick Bailey, Bristol University will examine the Microbiome and the opportunities for improving health and performance and the potential for the development of a new generation of efficacious probiotics, while Dr Jaap Van Milgen, INRA will update on precision protein and amino acid interactions in pigs. The final paper by Dr Pinder Gill will report on a new management tool aimed at putting a monetary value on improvements in pig management.

The conference is approved by the Society of Biology for the purposes of CPD. Individuals who are in a CPD Approval Scheme will gain 18 credits by attending this event. Delegates will receive authoritative updates and participate in lively debate on current topics of major importance to the industry. We look forward to welcoming you to the conference which promises to be informative and challenging.

Programme

- 10.00 Chairman**
Paul Toplis, AB Agri Ltd
- 10.15 Future Prospects for the UK Pig Industry – post Brexit**
Mick Sloyan, AHDB
- 11.00 Precision protein/amino acid Interactions**
Dr Jaap Van Milgen, France
- 11.45 Early Nutritional Strategies to promote Lifetime Pig Performance**
Dr Sian Nichols, Nutreco & Dr Sadie Douglas, Farmex
- 12.35 Lunch**
- 14.15 Chairman**
Paul Toplis, AB Agri Ltd
- 14.20 Litter Management (without mixing) with the new emerging super prolific type stock**
Manon Houben, Animal Health Institute, The Netherlands
- 15.05 The Microbiome – opportunities for improving Health and Performance and Development of new generation efficacious probiotics**
Professor Mick Bailey, Bristol University
- 15.50 Margin Maximiser – putting a monetary value on Improvements – A new tool for the industry**
Dr Pinder Gill, Pig Scientist
- 16.35 Tea and close of conference**

Tear off here

Registration – Pigs 2016
