

SOCIETY OF FEED TECHNOLOGISTS

P I G S

6th November 2014

**Windmill Village Hotel
Coventry**

For Whom

Pig Specialists from the feed supply chain eg Technical Advisors, Nutritionists, Buyers, Quality Control and Production personnel involved in animal feed production for pigs. This programme is also appropriate for farmers who are involved with pigs and companies are therefore welcome to invite their customers to the conference.

Introduction

We are delighted to invite you to the Society of Feed Technologists (SFT) conference on topical and important pig topics. With experienced speakers of the highest quality we can look forward to each paper being informative, relevant and attractively presented.

The conference will cover papers ranging from a Dutch major genetic house discussing the pros and cons of breeding for increased litter size and the nutritional implications of that on nutrient requirements and on farm feeding to the topic of PEDv that is currently of some concern to the industry. Our speaker from the University of Minnesota will include the North American experience with special reference to ingredients/feeds as a possible route of infection. Bristol University will present a paper on gut health issues in general and feed related factors. The recently retired Head of Feed Medicines at the UK Veterinary Medicines Directorate will speak on the responsible use of medicines in agriculture with special reference to pigs especially in the light of some new legislation on in-feed medicine being introduced just prior to the conference.

Delegates will receive authoritative updates and participate in lively debate on current topics of major importance to the industry.

We look forward to welcoming you to the conference which promises to be informative and challenging.

PROGRAMME:

- | | | |
|-------|---|--|
| 10.00 | Chairman | Dr Richard Slade
DSM Nutritional Products |
| 10.15 | 40 pigs/sow/year; Is this an economically viable option? | Willem Steyn
TOPIGS |
| 11.00 | Antimicrobial reduction programmes - what we need to consider? | John Fitzgerald
RUMA |
| 11.45 | What can we learn from PEDv – how can we be better prepared for the next virus? | Dr Peter Davies
